  - 193 – Original payment decision is being maintained. Upon review, it was determined that this claim was processed properly.

## **Issues**

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to reimbursement?

## **Findings**

1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables was not requested.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
  - Procedure code J7030 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
  - Procedure code J7120 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
  - Procedure code 80053 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$14.53. 125% of this amount is \$18.16
  - Procedure code 85025 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$10.69. 125% of this amount is \$13.36
  - Procedure code 85610 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$5.40. 125% of this amount is \$6.75
  - Procedure code 85730 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$8.25. 125% of this amount is \$10.31
  - Procedure code 73130 has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. These services are classified under APC 0260, which, per OPPS Addendum A, has a payment rate of \$45.95. This amount multiplied by 60% yields an unadjusted labor-related amount of

\$27.57. This amount multiplied by the annual wage index for this facility of 0.9437 yields an adjusted labor-related amount of \$26.02. The non-labor related portion is 40% of the APC rate or \$18.38. The sum of the labor and non-labor related amounts is \$44.40. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$44.40. This amount multiplied by 200% yields a MAR of \$88.80.

- Procedure code 13132 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 100%. These services are classified under APC 0135, which, per OPSS Addendum A, has a payment rate of \$393.38. This amount multiplied by 60% yields an unadjusted labor-related amount of \$236.03. This amount multiplied by the annual wage index for this facility of 0.9437 yields an adjusted labor-related amount of \$222.74. The non-labor related portion is 40% of the APC rate or \$157.35. The sum of the labor and non-labor related amounts is \$380.09. Per Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if a claim has more than one surgical service line with a status indicator of S or T and any of those lines has a charge of less than \$1.01, then the charges for all S and T lines are summed and the charges are divided across those lines in proportion to their APC payment rate. The new charge amount is used in place of the submitted charge amount in the line-item outlier calculation. This claim has a status indicator S or T line item with a billed charge less than \$1.01; therefore, all S and T line charges are reallocated accordingly. The APC payment for this service of \$380.09 divided by the sum of all S and T APC payments of \$1,204.46 gives an APC payment ratio for this line of 0.315569, multiplied by the sum of all S and T line charges of \$5,091.50, yields a new charge amount of \$1,606.72 for the purpose of outlier calculation. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$380.09. This amount multiplied by 200% yields a MAR of \$760.18.
- Procedure code 13133 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 50%. These services are classified under APC 0134, which, per OPSS Addendum A, has a payment rate of \$251.48. This amount multiplied by 60% yields an unadjusted labor-related amount of \$150.89. This amount multiplied by the annual wage index for this facility of 0.9437 yields an adjusted labor-related amount of \$142.39. The non-labor related portion is 40% of the APC rate or \$100.59. The sum of the labor and non-labor related amounts is \$242.98. Per Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if a claim has more than one surgical service line with a status indicator of S or T and any of those lines has a charge of less than \$1.01, then the charges for all S and T lines are summed and the charges are divided across those lines in proportion to their APC payment rate. The new charge amount is used in place of the submitted charge amount in the line-item outlier calculation. This claim has a status indicator S or T line item with a billed charge less than \$1.01; therefore, all S and T line charges are reallocated accordingly. The APC payment for this service of \$121.49 divided by the sum of all S and T APC payments of \$1,204.46 gives an APC payment ratio for this line of 0.100867, multiplied by the sum of all S and T line charges of \$5,091.50, yields a new charge amount of \$513.56 for the purpose of outlier calculation. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line, including multiple-procedure discount, is \$121.49. This amount multiplied by 200% yields a MAR of \$242.98.
- Procedure code 13133 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. These services are classified under APC 0134, which, per OPSS Addendum A, has a payment rate of \$251.48. This amount multiplied by 60% yields an unadjusted labor-related amount of \$150.89. This amount multiplied by the annual wage index for this facility of 0.9437 yields an adjusted labor-related amount of \$142.39. The non-labor related portion is 40% of the APC rate or \$100.59. The sum of the labor and non-labor related amounts is \$242.98. Per Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if a claim has more than one surgical service line with a status indicator of S or T and any of those lines has a charge of less than \$1.01, then the charges for all S and T lines are summed and the charges are divided across those lines in proportion to their APC payment rate. The new charge amount is used in place of the submitted charge amount in the line-item outlier calculation. This claim has a status indicator S or T line item with a billed charge less than \$1.01; therefore, all S and T line charges are reallocated accordingly. The APC payment for this service of \$121.49 divided by the sum of all S and T APC payments of \$1,204.46 gives an APC payment ratio for this line of 0.100867, multiplied by the sum of all S and T line charges of \$5,091.50, yields a new charge amount of \$513.56 for the purpose of outlier calculation. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line, including multiple-procedure discount, is \$121.49. This amount multiplied by 200% yields a MAR of \$242.98.

These services are classified under APC 0439, which, per OPPS Addendum A, has a payment rate of \$146.24. This amount multiplied by 60% yields an unadjusted labor-related amount of \$87.74. This amount multiplied by the annual wage index for this facility of 0.9437 yields an adjusted labor-related amount of \$82.80. The non-

labor related portion is 40% of the APC rate or \$58.50. The sum of the labor and non-labor related amounts is \$141.30. Per Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if a claim has more than one surgical service line with a status indicator of S or T and any of those lines has a charge of less than \$1.01, then the charges for all S and T lines are summed and the charges are divided across those lines in proportion to their APC payment rate. The new charge amount is used in place of the submitted charge amount in the line-item outlier calculation. These services are classified under APC 0437, which, per OPPS Addendum A, has a payment rate of \$39.13. This amount multiplied by 60% yields an unadjusted labor-related amount of \$23.48. This amount multiplied by the annual wage index for this facility of 0.9437 yields an adjusted labor-related amount of \$22.16. The non-labor related portion is 40% of the APC rate or \$15.65. The sum of the labor and non-labor related amounts is \$37.81. Per Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if a claim has more than one surgical service line with a status indicator of S or T and any of those lines has a charge of less than \$1.01, then the charges for all S and T lines are summed and the charges are divided across those lines in proportion to their APC payment rate. The APC payment for this service of \$37.81 divided by the sum of all S and T APC payments of \$1,204.46 gives an APC payment ratio for this line of 0.031392, multiplied by the sum of all S and T line charges of \$5,091.50, yields a new charge amount of \$159.83 for the purpose of outlier calculation. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$37.81. This amount multiplied by 200% yields a MAR of \$75.62.
- Procedure code 99284 has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC if OPPS criteria are met; however, review of the submitted information finds that the criteria for composite payment have not been met. Therefore, this line may be paid separately. These services are classified under APC 0615, which, per OPPS Addendum A, has a payment rate of \$229.37. This amount multiplied by 60% yields an unadjusted labor-related amount of \$137.62. The sum of the labor and non-labor related amounts is \$221.62. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$221.62. This amount multiplied by 200% yields a MAR of \$442.20.

The sum of the labor and non-labor related amounts is \$37.81. Per Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if a claim has more than one surgical service line with a status indicator of S or T and any of those lines has a charge of less than \$1.01, then the charges for all S and T lines are summed and the charges are divided across those lines in proportion to their APC payment rate. The new charge amount is used in place of the submitted charge amount in the line-item outlier calculation. This claim has a status indicator S or T line item with a billed charge less than \$1.01; therefore, all S and T line charges are reallocated accordingly. The APC payment for this service of \$37.81 divided by the sum of all S and T APC payments of \$1,204.46 gives an APC payment ratio for this line of 0.031392, multiplied by the sum of all S and T line charges of \$5,091.50, yields a new charge amount of \$159.83 for the purpose of outlier calculation. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$37.81. This amount multiplied by 200% yields a MAR of \$75.62.
3. The total allowable reimbursement for the services in dispute is \$2,988.50. This amount less the amount previously paid by the insurance carrier of \$2,989.13 leaves an amount due to the requestor of \$0.00. No additional reimbursement can be recommended.

### **Conclusion**
